

Duplex Wireless Systems

“These Headsets Rock!”

*Dan Witgen
Armada, MI*

RUGGED HEADSET / RADIO

“ALL IN ONE!”

Porta Phone COMSTAR “All in One” full duplex headsets have revolutionized the wireless communication industry. These totally self-contained headset / radios feature a compact transceiver installed inside the ear cup that eliminates cables, belt packs and external antennas once and for all.

COMSTAR intercoms utilize the 1900 MHz band designated for VOICE COMMUNICATION ONLY! This means that COMSTAR is free from outside interference including microwave, internet, scoreboards, and other wireless headsets that operate in the congested 2.4 GHz non-licensed band.

COMSTAR Single

COMSTAR Double

✓ Microphone Worn on Left or Right Side

No More Beltpacks!

- Instant setup.
- Range up to 800 yards.
- Unique frequency for each program.
- Headsets weigh only 12 oz.
- 2 Year warranty.

The COMSTAR Advantage:

ON/OFF, Volume, Mic Mute or Channel Switch are installed right on the ear cup.

Rechargeable Lithium Batteries snap into place, run time 10 hrs.

Com-Center powered by AC wall current, rechargeable battery, or disposable battery sled (all included).

Digital Signal Console

Staff Conference All Coaches On The Same Line

by Porta Phone

Single Channel "Pro" Series

COMSTAR PRO SERIES are affordable full duplex intercoms that allow coaches to talk simultaneously without cables or belt packs.

Coach Bobby Brasher
Brook Hill School, Bullard TX

A key feature of Pro Series systems is the COMSTAR "Com-Center" which can be placed either on the sideline or inside the pressbox. Since coaches do not have to plug into the Com-Center they can roam freely making COMSTAR ideal for smaller programs that may have limited pressbox facilities at away games.

Off/Def & Staff Conference For Large Programs

by Porta Phone

Dual Channel "Flex Max" Series

The COMSTAR Flex Max allow up to 10 coaches to talk simultaneously with no buttons to push.

These systems include Max 3G headsets that plug directly into the Dual Channel Com-Center on the pressbox tabletop. The built in switching circuitry allows key personnel upstairs to individually switch from offense to defense. In addition, a staff conference button that connects all coaches is right at the pressbox coach's fingertips.

With no betpacks or remote antennas needed this rugged system is both simple and reliable.

The Best Value of Any Wireless on the Market.

Push-To-Talk

The Scrambler UHF is an outstanding Simplex "Push-to-Talk" wireless. The system combines Porta Phone Max 3G headsets with rugged Scrambler UHF transceivers.

Operation of the Scrambler is simple, to transmit simply press the PTT button installed right inline on the headset cable. There are no pendants or extra wiring to worry about.

Each Scrambler is programmed with 16 UHF high band frequency combinations. In addition, signal scrambling guarantees that your staff will always communicate in total privacy.

Channel Enunciation

System "tells" coaches which channel they're on.

A computer frequency search of your conference is made by Porta Phone before shipment. Please forward a copy of your football schedule with your order.
